Subject: MLPAComments: package 2

To whom it may concern:

I am writing to inform you of my wish that Package 2 to be designated the "Preferred Alternative" for the marine protected area. If you do not select package number 2, I support modifications to Package S in the South Monterey Bay Area, and in the North Carmel Bay Area. I recommend that the Captain Edward C. Cooper State Marine Reserve be established between the Breakwater and Lover's Point to a depth of 60 feet. I also request that a SMR be established from the Outer Pinnacles eastwardly, past Pescadero Point, to include Dali's Reef, the second most popular dive site next to the Pinnacles, in North Carmel Bay. Please stop Package S, in it's current form.

Thank you, Laura Carmody
